KRISHNA CHAUDHARY

+91-7440317530 | krishnachaudhary21june@gmail.com | LinkedIn | GitHub | Portfolio

Summary

B.Tech Information Technology student with experience in full-stack web development, Shopify, AI applications, and modern frontend technologies. Skilled in building scalable web applications using Next.js, TypeScript, React, and Spring Boot, and in delivering responsive production websites for startups and businesses.

Education

Madhav Institute of Technology & Science, Gwalior 2023 – 2027
Bachelor of Technology in Information Technology

Technical Skills

- **Languages:** Java, Python, HTML, CSS
- **Frontend:** Next.js, React.js, Tailwind CSS, Bootstrap
- **ML data science:** TensorFlow, Keras, OpenCV, Groq API, Google Gemini API, Pandas, Scikit-Learn, TTS, ElevenLabs API, NumPy
- **Tools:** Git, GitHub, VS Code, Vercel, Figma, Cursor, Claude, Copilot, Codex, Shopify
- **Concepts:** OOP, Operating Systems, Computer Networks, Computer Fundamentals, Deep Learning

Projects

Developer Portfolio Website | Live Portfolio

- Designed and developed a fully responsive personal portfolio website using Next.js and Tailwind CSS.
- Showcased projects, skills, certifications, and achievements through a modern, intuitive interface.
- Optimized website performance using Next.js routing, image optimization, and reusable React components.

Brain Tumor Detection System

- Built a CNN-based brain tumor classification model achieving over 92% validation accuracy on MRI datasets.
- Performed preprocessing, augmentation, and visualization using OpenCV, NumPy, Pandas, and Matplotlib.
- Designed an image preprocessing pipeline to improve inference accuracy and reduce latency.

Real-Time Indian Sign Language Recognition | GitHub Repo

- Developed a real-time Indian Sign Language recognition system using MediaPipe and TensorFlow.
- Implemented gesture recognition and integrated Text-to-Speech functionality for communication assistance.
- Built a FastAPI backend to provide low-latency predictions and real-time processing.

Experience

Blu J International | Blu-J Website Remote
Web Developer *2026*

- Developed the official company website using Next.js, TypeScript, and Tailwind CSS.
- Designed reusable UI components while ensuring responsive layouts across desktop and mobile devices.
- Optimized page performance using Next.js features including server-side rendering and image optimization.
- Worked closely with the startup team to convert business requirements into scalable frontend solutions.

Heka Fashion | hekafashion.com Greater Noida
Shopify Developer *May 2026 – July 2026*

- Built and launched Heka Fashion's complete e-commerce website on Shopify, from storefront design to a live store.
- Customised the store's design by editing the Shopify theme and writing custom Liquid code, creating polished, responsive home, collection, product, and informational pages.
- Handled product data entry (listings, images, pricing, variants, collections) and moved all offline inventory online.
- Managed daily store operations on Shopify, including stock tracking, order handling, and online marketing support.

Certifications

Introduction to Artificial Intelligence | *Infosys Springboard* June 2026
Introduction to Deep Learning | *Infosys Springboard*
